PocketPlane-Laser 4G

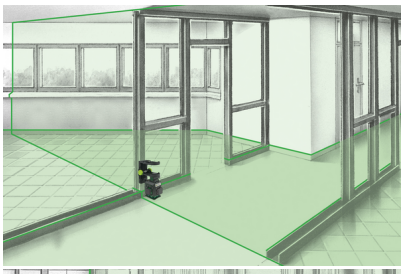

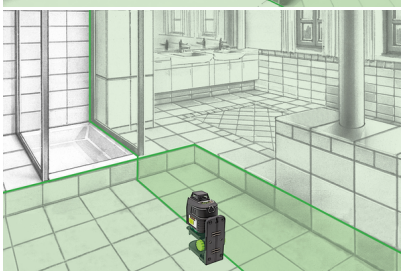

Three-dimensional, practical laser with two horizontal and two vertical green laser circles and a comprehensive range of accessories – particularly suited to alignment close to the ground

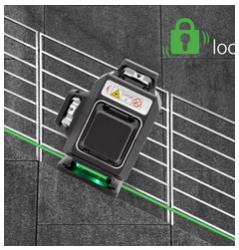

This three-dimensional, practical and highly visible green laser projects two horizontal and two vertical laser circles for precise alignment of objects. Thanks to the horizontal laser circle at the very bottom, the device is particularly suited to applications close to the floor, such as determining floor heights and aligning skirting boards. The laser crosses form a plumb function for working simultaneously on floors and ceilings. A manual slope mode is available for creating gradients. This laser is an extremely useful tool for demanding projects due its the comprehensive range of accessories. The PocketWallHolder is a multi-functional, height-adjustable, magnetic bracket for attaching the laser to walls, metal items and tripods with a 1/4" or 5/8" thread.

TECHNICAL DATA

Self-Levelling Range	± 3.5° (horizontal)
Accuracy	±0.3 mm/m
Levelling	automatic
Visibility (Typical)*	30 m
Laser Wavelength	515 nm
Laser Class	2 / < 1 mW
Power Supply	Li-ion battery pack 3.7V / 4.0Ah / 14.8Wh
Operating Time	with 3 laser levels: approx. 7 hours
Operating Conditions	0°C … 50°C, max. humidity 80% rH, no condensation, max. working altitude 4000 m above sea level
Storage Conditions	-10°C … 70°C, max. humidity 80% rH
Dimensions (W x H x D)	103 mm x 106 mm x 76 mm
Weight	464 g (incl. battery pack)

SCOPE OF DELIVERY

Item No. 036.705A	GTIN (EAN) 4021563740284	SU 1
